Mr. Johnson quotes Julge Briscos G Baldwin, one of the ablest judges who ever sat on the bench of the Court of Appeals of Virginia, who declared that Congress had the constitutional power to retrucade and Virginia for accepting the retrocession of territory ceded by the

STATE-WIDE PROBIBITION.

Presenting to the general assembly the programme of the Virginia Ant Salson Langue, together with mechinery to carry out the plan, Son aur Strode on Saturday Introduced a hill providing for an election by all the qual fied voters of the state on the subject of state-wide prohibition, to be held whenever petitioned for by a number of voters equal to 25 per cent, of the number voting at the preceding general election. The bill was referred to the committee on privileges an i elections where it should sleep for-

Olerks of courts are to examine the lists of petitioners and certify the qualifications of the persons where names are signed to the request for an election. When the required tumber has been presented, the governor is to issue a call for an election, giving not less than sixty nor more than ninety days' notice.

The votes are to be canvassed and the result presented to the governor. If a majority of the citizens voting have voted for the continued licensing of intoxicaing liquors, conditions are to remain the same as before the election was held. Should a mejority vote egainst license, the prohibition is to go into effect on the first day of the following May, the date on which all state licenses expire. This means that in no case could the state be dry before May 1, 1911.

However, there are important exceptions. Wines and ciders could still be made from grapes, perrica or fruits by the person growing them, and could be sold (sppareatly by any one) at the place of manufacture only, and only in packages of not less than two gallens. No wine is to be dank or opened on he premises where sold.

Cider is to be sold only by the persona growing the fruit from which it is made. It is to contain not more than 6 per cent of slouhol, and must be sold by the grower and not through agents, employes or attorneys. But the prohibiion ngsinst the esle of older by the agent or employes do a not apply in the county or city in which the fruit is grown or in which the cider is made.

right in this respect. The act is not made an emergency measure, and would not be in force un-

til Juce 12 nex'. Some discussion was had upon the atroduction of the bill as to its reference to the committee. It was suggested that it should go to the committee ou finance. where it will probably be sent later. That body would be compelled, in case of the passage of the bill, to either cut its appropriations largely for state de partments and justitutions or else must levy increased taxes upon the people of the sate. The Egent license bill, which has already passed the Sanate, would be of no avail so far as 1911 is

concerned. Should the present legislature pass a doubt if it can'd become a law, for the bure u of fisheries of the D. partment of resson they say that Governor Mann would not sign it. LEE STATUE LEFT IN QUIET. The statue of General Robert E. Lie, lad in the uniform of a Confederate soldier, will remain in Staufry Hall in the Capitol in Washington without the usual ceremonics of dedication or the customary formal resolutions and speeches accepting it on behalf of Congreer. A final decision to that effect was reached Saturday afternoon at a meeting of the Lee Statu: Committee of the V.rginia legislature held in Senator Daniel's room in the Capital.

In following this course the wishes of General Lee's relatives were observed ard the advice of the State delegation in Congress was made effective. It was considered advisable that all the hitterness and pr julices of wer times abould not be revived by discussion in the Senate or II it e. on resolutions accepting the statue presented by Virginia. There was a sentiment in the commission in favor of baving the und presentation ceremonies on a date to be set by Congress, but this was not the view of the majority and was approved only by

one member of the Virginia delegation in Congress by Mr. Maynord, Those prezent at the meeting included Seca'or Don P. Halsey, of Lynchburg, chairman of the commission; T P. Gold, of Clarke county; Edward Lyle, of Rancke; Juige George L Christian, of R'chmond; Gao. E. Sipe, of Bockingham; Senstor Martin and Representatives Maynard and Saunders.

Cooking Your Goose. The phrase "I'll cook your goose for you" originated in this manner: Eric. king of Sweden, coming to a certain town, besieged it, but, having few soldiers, was obliged to desist. The inhabitants in derision hung out from the walls a goose on a pole. Later Eric returned with re-enforcements and in reply to the challenge of the heralds observed that he had come "to cook their goose for them" and proceeded to storm the town and make it hot for the inhabitants.
